Lunch will be provided.

FOLIAR FEEDING & BEYOND

Let's get 2024 Started Right...

GUEST SPEAKER- Joel Williams

Joel Williams is an independent plant and soil health educator and consultant who has worked extensively in Australia, Europe and Canada where he is currently based. He has a keen interest in soil/plant microbiomes, plant nutrition and foliar technologies and how these may support the development of low input/high efficiency production systems. Joel has a Bachelor of Agricultural Science specialising in plant and soil dynamics and an MSC in Food Policy where he explored motivations and barriers to the adoption of intercropping. Joel has a passion for teaching and sharing a combination of scientific and practical information and has lectured to farming audiences internationally.

Tim Chitwood; VP of Agronomy with QLF.

Tim has played a key role in the development of QLF's Agronomy Products portfolio. Tim has indepth knowledge and expertise on the applications, features and benefits of QLF's Liquid Carbon Based Fertilizers and can consult how these products can fit into current fertilizer program.
