

## Joel Williams –

- Bio-stimulants, Bioferts Fish, kelp, fulvic and humic
- Foliar feeding for pastures

Joel Williams is an independent plant and soil health educator and consultant, who speaks to farmers across the world. His passion for teaching shines through as he combines scientific rigour with practical insights, making complex agricultural concepts accessible. Joel has become a beacon of knowledge for those seeking sustainable and innovative production systems.

Take advantage of this unique opportunity to learn from the best! Join us at the Bunyip Hall for an engaging day with Joel Williams from Integrated Soils.

The morning session will focus on Bioferts, bio stimulants , fish, kelp humic, fulvic etc.

The afternoon session will focus on foliar feeding for pastures – meeting plant nutritional requirements, how to chelate and things we need to be aware of.
