

Innovative Pastures for Adaptive Farms

Field Day

Wednesday 1st October | 9am - 2pm

Ettershank's Shearing Shed | 913 Cobramunga rd, Cobramunga NSW

Join us for the Innovative Pastures for Adaptive Farms Field Day!

This event will explore cutting-edge drought-tolerant pasture systems and their role in building farm resilience. Attendees will gain insights into healthy soils, the importance of ground cover, and emerging trends in dryland pasture management.

Joel Williams – Integrated Soils

- Plant and soil health specialist

Colin Seis – Winona farmer

- Pioneer of innovative pasture cropping solutions

Rebecca Stacey – Local Land Services

- Agriculture Production team leader

Damian Jones – Agronomist

- Resilient Pastures project agronomist
