Interactive workshop

SOIL & PLANT HEALTH: SCIENCE INTO PRACTICE

World-renowned plant and soil health educator and consultant, Joel Williams (Integrated Soils) will lead an interactive workshop tailored to Tasmanian vegetable and onion growers and advisors.

Key topics covered:

- ➔ **Soil biology and soil organic matter** - translating science and turning it into practical knowledge
- ➔ **Integrated nutrient management** - learn about low input strategies and improving fertiliser efficiencies
- ➔ **Foliar fertilising** - the science of nutrient uptake and tips on foliar feeding
- ➔ **System design** - how to think about and plan your farm for improved soil and plant health

Event details

-  **Tuesday 24 March**
-  **08:30am - 4:00pm**
-  **Aberdeen Room, Paranaple Centre, Devonport**
-  **Morning tea, lunch & refreshments included**
-  **Tickets required; event is free for levy paying veg & onion growers**
